The North Mississippi VISTA Project (NMVP) is an initiative of the Grisham-McLean Institute which aims to create sustainable solutions at nonprofit organizations that fight poverty and improve the quality of life in Mississippi.

As part of the NMVP cohort, AmeriCorps VISTA members serve full time (35-40 hours/week) for one year at community and campus-based organizations throughout north Mississippi to promote educational attainment, economic security, and healthy communities.

Start dates are available year-round at NMVP partner sites!
